Strategic Intent Defined

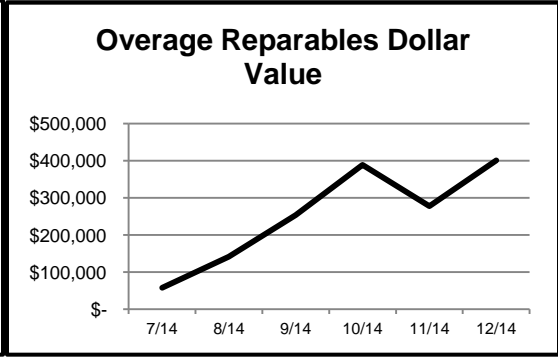

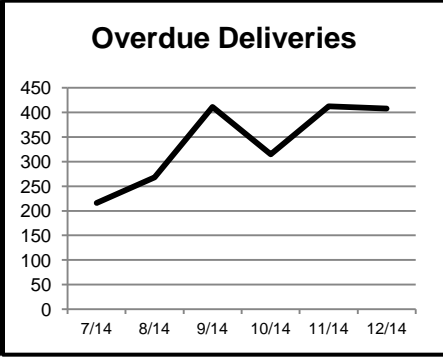

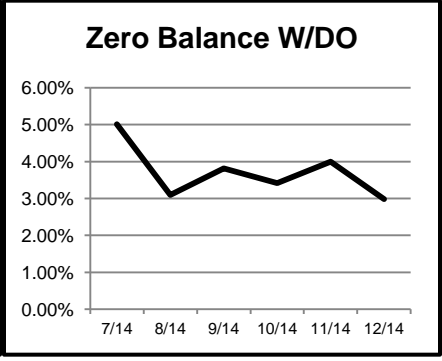

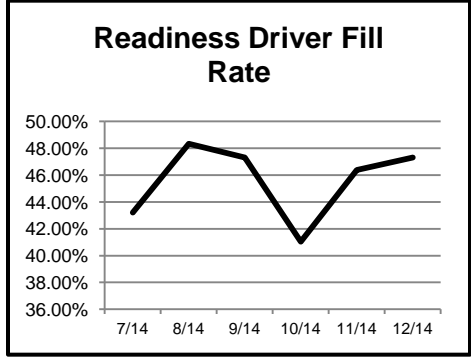

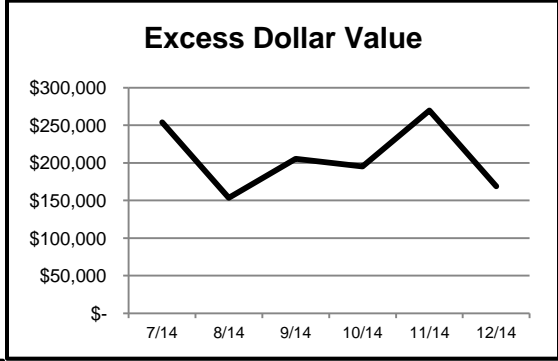

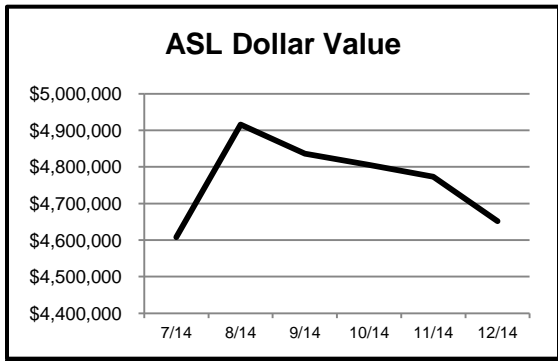

- **Stewardship** – The dollar value of inventory being carried to support customer base.
- **Strategic Performance** – The performance of the Authorized Stockage List in supporting the customers readiness management mission.
- **Efficiency** – The effectiveness of SSA personnel in leveraging available ASL through efficient receipting, storing, issuing, inventory, and retrograding of stocks.

Interpreting the Numbers

METRIC	DEFINITION
ASL Lines	Total MRP Type VV, ZM, and ZP lines
ASL Dollar Value	ASL Lines times extended dollar on hand
Demand/Consumption Supported	Total number of ASL lines that are MRP Type = VV
Consumption Supported Dollar Value	Extended dollar value for VV lines
Mandatory Stockage	Total number of ASL lines that are MRP Type = ZM
Mandatory Stockage Percentage	Percentage of total ASL lines that are MRP Type = ZM (allowance is 5%)
Mandatory Stockage Dollar Value	Extended dollar value for ZM lines
Provisional Stock	Total number of ASL lines that are MRP Type = ZP
Provisional Stock Dollar Value	Extended dollar value for ZP lines
Excess (non-stocked) Lines	Total number of non-stocked lined (MRP Type = PD) on hand
Excess (non-stocked) Dollar Value	Extended dollar value for PD lines
Readiness Drivers (MSP)	Total number of ASL lines that are Maintenance Significant Parts (Readiness Drivers)
Readiness Drivers (MSP) Percentage	Percentage of total ASL lines that are Maintenance Significant Parts (Readiness Drivers)
Fill Rate	Standard Fill Rate metric calculation
DA (Demand Accommodation)	Standard Demand Accommodation metric calculation
DS (Demand Satisfaction)	Standard Demand Satisfaction metric calculation
Transaction Volume	Total customer requirements processed during previous month
Readiness Driver Fill Rate	Standard Fill Rate metric calculation applied to Maintenance Significant Parts (Readiness Drivers) only
Readiness Driver Accommodation	Standard Demand Accommodation calculation applied to Maintenance Significant Parts (Readiness Drivers) only
Readiness Driver Satisfaction	Standard Demand Satisfaction calculation applied to Maintenance Significant Parts (Readiness Drivers) only.
Readiness Driver Volume	Total number of customer requirements that were Maintenance Significant Parts (Readiness Drivers)
Release Strategy	Total number of Purchase Requisitions not released within 72 hours
Overdue Deliveries	Inbound Deliveries that have exceeded their calculated Planned Delivery Time (PDT)
Overdue Deliveries W/ZBAL	Inbound Deliveries that have exceeded their calculated Planned Delivery Time (PDT) and are at Zero Balance.
Overdue Deliveries W/ZBAL + DOs	Inbound Deliveries that have exceeded their calculated Planned Delivery Time (PDT) and are at Zero Balance with open customer requirements
Zero Balance	Standard Zero Balance calculation
Zero Balance W/DO	Standard Zero Balance calculation
Overage Reparables/Recoverables	Outstanding Recoverables/Reparables that have not been turned in within ten days
OR Dollar Value	Extended dollar value of Outstanding Recoverables/Reparables
